RELIABLE

velocity

digital compact vapor generator

Model	V95
Electrical	110V
Water capacity	1.27 cups - 300ml
Wattage	1500W
Elements	2
Maximum pressure	30g/min.
Steam generator type	Yes
Continuous steam	Yes
Automatic shutoff	Yes
Soleplate	Stainless steel
Anti-scale device	Yes
Power consumption	13 amps
Cord length	8.2'
Electrical approval	cETLus
Weight	4 Lbs (1.81 kg)

DESCRIPTION

Enjoy professional ironing quality and speed with the simplicity of using a traditional iron. Reliable presents the Digital Velocity Compact Vapor Generator. A revolutionary and patented technology, Velocity incorporates an internal steam generator that produces more steam continuously (30g/min) than conventional irons. This guarantees a professional finish to your garments.

PREVENT SHINE AND PROTECT YOUR VALUABLE CLOTHES

At last steam and low temperature are compatible. The Digital Velocity generates volumes of steam at the point of the iron, so now you can iron delicate and dark garments without having to use those annoying damp cloths to prevent shine.

UNIFORM SOLEPLATE TEMPERATURE

The Digital Velocity doesn't produce steam with the soleplate heat like traditional irons, but generates it inside, so you can adjust the soleplate temperature to the exact needs of the fabric you are pressing. There is no more need to have a higher temperature in order to prevent water spitting.

ACOUSTIC WARNING DEVICE

In addition, the Digital Velocity has an acoustic warning device that beeps when a) the desired temperature is reached b) when the auto shut-off safety system is activated and c) each time you press a selection button.

ADVANTAGES THAT CAN BE SEEN

The Digital Velocity is equipped with an innovative electronic control system with LCD display, which allows for easier, more accurate and safer regulation of the iron functions.

J450A

Home Ironing System With CSS™ And Removable Water Tank

Model	J450A
CSS™	Standard
Electrical	110V/120V
Water Capacity	2.74 cups - 0.65L

Weight - net	13.44 lbs with iron
Shipping dimensions	16" x 13.3" x 13.3"
Shipping weight	15.43 lbs with iron
Warranty	Reliable™ 1 Year Warranty 3 years on boiler tank

DESCRIPTION

What's the "secret" to getting a clean, crisp finish to your garments?

Professionals know the value of using dry, pressurized steam when ironing. This gets the steam into the fabric faster - your ironing time is cut in half (it's true). Steam is used to soften the fibers, and the weight of the iron shapes the fabric. This is done effortlessly when you have the right tools to do the job. Pressurized steam is the key. Once you've used it, you will never go back to your old iron again.

Find out what garment makers, dry cleaners and tailors have known for years; using *pressurized steam* transforms ironing from a tiresome chore to an effortless task. Now the same quality steam is available to everyone

With our CSS™ (Continuous Steam System) technology, you'll never have to worry about running out of steam in the middle of ironing again. Simply refill the built-in water tank when the water level is low (or the low water light indicates it's time) and away you go. No more waiting.

Reliable™ understands that the quality of an ironing system is only as good (no matter how nice it looks) as what is inside it. This is why we use the best components available to ensure your total satisfaction.

BEST USED FOR

All types of ladies, men's and children's clothing, drapery and home furnishings

FEATURES

- CSS™ - allows easy & continuous refilling while in use
- Removable water container for CSS™

DESCRIPTION

What's the "secret" to getting a clean, crisp finish to your garments?

Professionals know the value of using dry, pressurized steam when ironing. This gets the steam into the fabric faster - your ironing time is cut in half (it's true). Steam is used to soften the fibers, and the weight of the iron shapes the fabric. This is done effortlessly when you have the right tools to do the job. Pressurized steam is the key. Once you've used it, you will never go back to your old iron again.

Find out what garment makers, dry cleaners and tailors have known for years; using *pressurized steam* transforms ironing from a tiresome chore to an effortless task. Now the same quality steam is available to everyone

With our CSS™ (Continuous Steam System) technology, you'll never have to worry about running out of steam in the middle of ironing again. Simply refill the built-in water tank when the water level is low (or the low water light indicates it's time) and away you go. No more waiting.

The J490A is the first ironing system equipped with an anti-calc warning system. In a few short steps, you can programme the boiler for the hardness of water that you are using (litmus paper is supplied) and the system will automatically tell you when it is time to use the de-scaling powder that is supplied. No more guessing!

BEST USED FOR

All types of ladies, men's and children's clothing, drapery and home furnishings

FEATURES

- Felt insert for snug fit
- Super smooth PTFE for easy gliding over all types of fabrics

Longboard™

2 in 1 Home Ironing Table

Model	C55LB
Fabrication	Chrome plated Anti-rust treated
Cover sets	2
Catch tray	Included
Iron tray	Steam station or regular
Height Adjustment	22.5" - 36.5"
Pressing dimensions	18.9 x 55" (with extension)
Pressing dimensions	18.9" x 47.25" (w/out ext.)
Shipping dimensions	21" x 64" x 6"
Weight	31 lbs
Warranty	Reliable™ 1 Year Warranty

DESCRIPTION

The Longboard is the world's first and only 2 in 1 home ironing table.

It features a generous ironing surface for regular ironing and an extension piece for oversized pieces like tablecloths and linens. A snap to install, the extension's shape is also ideal for the dedicated quilter or knitter.

Each Longboard comes with two cover pads. For peace of mind, there is a heat and fire resistant insert at the end of the oversized cover so you can rest your iron on it directly.

Like all Reliable™ products, the Longboard is built to last. A treated galvanized work surface is covered with a mesh screen ensuring maximum passage of steam. Each unit is also equipped with a catch tray and a support that holds a steam station or a stand-alone iron.

BEST USED FOR

Clothing (all types)
Quilting, knitting
Tablecloths and linens

FEATURES

- Large 18.9" x 47.5" working surface for regular ironing
- Extra large 18.9" x 55" working surface for quilting, knitting and tablecloths
- 2 - Ironing cover/pad sets
19" x 55" pad & cover set with heat & fire resistant material for your iron to sit on at the end
19" x 47" high performance one-piece cotton cover set
- Extra heavy-duty construction - chrome plated and treated
- Height adjustable - 22.5" - 36.5"
- Individually shrink wrapped and packed in a corrugated box with double polystyrene protection
- End trap supports an iron or an iron steam generator

C81

Home Vacuum & Up-Air Pressing Table

Model	C81
Electrical	110V
Heated pressing surface	Standard
Functions	Vacuum & up-air
Power consumption	7 amps
Electrical approval	ETL
Country of origin	Italy
Pressing dimensions	16" x 48.5"
Height adjustment	30.5" - 38.5"
Pedal	Left or right hand use
Shipping dimensions	16" x 57" x 10"
Weight	49 lbs
Warranty	Reliable™ 1 Year Warranty

DESCRIPTION

For the ultimate pressing performance, we suggest the C81 - with features that will give you professional results every time (the same features used by the best garment makers, dry cleaners and tailors in the world).

The "secret" to getting a clean-crisp finish to your garments? Your ironing table needs to have vacuum to remove the steam (it's built right into the table). Plus, the ironing table needs to stay dry. The pros know this.

For the C81 we add the "up-air" feature - we literally reverse the vacuum to create blowing so you can press on a cushion of air. Perfect for those delicate areas that are prone to show marks on the fabric (pocket area on pants, fly front, jacket lining, corduroy, velvet and so on... any area that if you pressed on a hard surface, it would leave an impression or crush the nap of the fabric).

Your clothes deserve better... with the C81's professional tools (vacuum and up-air), you will notice an immediate improvement in the finish quality of your ironing. Your clothes will look fantastic, and so will you.

Like all Reliable™ products, the C81 is built to last with the highest quality components to ensure years of trouble free use.

BEST USED FOR

All types of ladies, men's and children's clothing, linens and other household items

FEATURES

- Powerful vacuum & up-air motor
- Built-in heating element
- Large pressing surface
- Useable from either side of the table
- Folds up quickly and easily
- *Quick-Dry* textured polyester cover set

C88

Professional Vacuum Pressing Table

Model	C88
Electrical	120V
Heated pressing surface	Standard
Functions	Vacuum only
Power consumption	10 amps
Electrical approval	ETL
Country of origin	Italy
Pressing dimensions	16" x 48.5"
Height adjustment	30.5" - 38.5"
Pedal	Left or right hand use
Shipping dimensions	16" x 57" x 10"
Weight	50 lbs
Warranty	Reliable™ 1 Year Warranty

DESCRIPTION

The C88 is equipped with a powerful and fast vacuum motor. The strong vacuum will give you a clean-crisp finish to your garments, guaranteeing professional results. The fast start up time means you won't be waiting for the motor to rev up to speed.

Like all Reliable™ products, the C88 is built to last. It is made entirely of metal in order to ensure stability and sturdiness even for heavy-duty professional work. The built-in heating element helps dissipate the steam, and keeps the inside of the machine dry and rust free.

BEST USED FOR

Skirts, blouses, dresses and shirts
Children's clothing
Linens and other household items
General touch-up work

FEATURES

- Powerful vacuum motor
- Built-in heating element
- Useable from either side of the table (left or right side)
- Folds up quickly and easily
- *Quick-Dry* textured polyester pad and cover set
